Artificial turf Holiday24 Maui

Artificial turf

Article number(s):	45
--------------------	----

Material / structure

Type of production	Tufted, synthetic
Spacing	3/8"
Pile material	PE mono-filament smooth & PP curly (UV-stabilised)
Backing design	SBR backing with drain holes
Pile weight (g/m ²) approx.	2.133
Pile height (mm) approx.	45,0
Total height (mm) approx.	47,0
Total weight (g/m ²) approx.	3.104
Width (cm) approx.	200 + 400

Technical data sheet

Artificial turf Holiday24 Maui

Product characteristics

UV-stability (DIN 53387)	Standard (6,000 hours)
Colour fastness (Xenon test)	Scale blue >7 / scale grey > 4
Water permeability approx.	60 litres per minute per m ²
Use	Balcony, patio, garden, landscape gardening
